AVOID TAINTED BUTTER

Rancid butter is caused by dirt. There's just one separator that isn't apt to rancid butter—it's the

TUBULAR SEPARATOR

It has the simple three pieces bowl—the latest, most effective separator device—and is EASILY KEPT PERFECTLY CLEAN. Others cannot be kept clean without a great deal of labor. It turns easily—skims easily—sets fast. Call for a catalog.

GEO. D. WALLACE, WETASKIWIN

Supreme Court

CROWN CASES

The King vs. Stoney Paul. Burglary. Prisoner found guilty of stealing and sentenced to three months' imprisonment. Prisoner undefended, G. B. Henwood for the Crown.

The King vs. Myers. Wounding. Prisoner found guilty and sentenced to three months' imprisonment with hard labor. Prisoner undefended, G. B. Henwood for the Crown.

SMALL DEATS

owler & Co. vs. Scanstad. Account. Verdict for the amounts claimed. Henwood & Wilkins for plaintiffs, no defense.

C. Utas vs. D. F. Binkley. Account for sawing. Verdict for \$48.95. M. E. O'Brien for plaintiff, no defense.

Mitchell vs. R. Ramsay. Claim for wages. Verdict for the defendant. Henwood & Wilkins for plaintiff. M. E. O'Brien for defendant.

H. Utas vs. G. Janetsky. Account. Adjudicated till next sitting. M. E. O'Brien for plaintiff, defendant in person.

Delta Anderson vs. J. C. Wilson. Action on note. Adjudged till next sitting. J. C. F. Bow for plaintiff, M. E. O'Brien for defendant.

The defendants to receive \$434.50 in court and \$150 within one month, subject to certain costs. Miles and Downs for plaintiffs. I. G. Walbridge, instructed by M. E. O'Brien, for defendants.

Bow & Robertson vs. Cherrington. On bill of costs. Verdict for plaintiff. L. E. Walbridge, instructed by M. E. O'Brien, for plaintiffs; C. de W. MacDonald for defendants.

Celebration July 4-5

A meeting of the Wetaskiwin Turf and Exhibition Association, Ltd., was held in the fire hall on Friday afternoon when a good attendance of the members were present.

On motion of A. R. Dickson, seconded by W. H. Eggleston, it was unanimously agreed that this association join the American Turf Association and that the secretary-treasurer forward the necessary fees at once.

On motion of A. R. Dickson, seconded by S. Swoboda, the date of our celebration was altered from June to Monday and Tuesday, July 1 and 2. Carried unanimously.

On motion, it was unanimously agreed that Messrs. H. H. Morgan, H. A. Johnson and V. C. French be a committee to look after all advertising matter.

On motion of V. C. James, seconded by C. E. Coupland, W. H. Eggleston was appointed a committee to raise money for prizes and purses.

After discussion it was agreed to offer \$1200 in prizes and the program committee was instructed accordingly. Meeting then adjourned.

Within the next two weeks two million trees will be sent out from the departmental farms at Brunden and Indian Head to be planted by farmers in the west. Within the past few years, tree planting has attained great popularity in the west. In 1901, the first year of free distribution, applications were received for only 50,000; in 1902 half a million were sent out; in 1903 the number had increased to one million, and this year, it has been stated, the number has reached the two million mark. Maple, cottonwood, aspens and elms are the varieties sent out.

Communication

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.)

RE THE ELECTRIC LIGHT SCHEME

To the Editor of The Times:

Dear Sirs.—As this matter is one of public interest, I crave the indulgence of a little space in your esteemed publication to correct what appears to me to be a slight error in the report of the recent council meeting published over the name of J. Y. Byers, town clerk, as it is in my opinion somewhat misleading.

The item in question is:

"Swoboda—Olin—That the proposal of Messrs. Linden & Daniel, regarding the electric lighting be laid on the table until the vote on such proposal by-law of the municipality may have been taken."—Carried.

Now Sir, Messrs. Linden & Daniel have never placed a proposal for electric lighting before the Town Corporation, but an application from the incorporators of the proposed "The Wetaskiwin Electric Light and Power Company, Limited," over the signature of their advocates, Messrs. Ruthford & Jamison, of Stratford, was addressed to the council, asking their consent that the proposed Company may carry on operations within the limits of the Municipality of Wetaskiwin, in the ordinary course of its business, etc., etc.

This consent is required under Sec. 2, Chap. 21, of the Ordinances of the Northwest Territories of 1901, before the proposed Company can obtain its Charter of Incorporation. The application is in general form and asks as the only assistance from the town a donation of a free site for its power house, but the incorporators of the proposed Company have instructed their advocates to notify the town council that they withdraw the request as the Company are willing to purchase its building site. Our proposal therefore will not entail one cent of expense upon the ratepayers.

Aids has been prevalent that the franchise is sought for the purpose of selling it to the highest bidder. Such is not the case, however, as the whole of the capital necessary to put in a first-class electric light and power system is being subscribed by gentlemen belonging to Wetaskiwin. The company has everything in readiness and can be easily in a position to have their plant going and the streets lighted within two months from the date the required "consent" of the town is received. The company will also be in a position to supply electric light and power at a lower charge than either Edmonton or Stratford, where the electric lighting systems are under municipal ownership.

Thanking you in advance for your space in the interests of fair play.

Very truly yours,
FRANCIS B. LINDEN,
Financial Agent.

Millet

The people of the burg were started last Monday morning to learn that a very painful and almost fatal accident had befallen Marjery, the two-year-old daughter of our esteemed townspeople, Mr. and Mrs. J. W. West. A bottle of carbolic acid had been left on the counter of Mr. West's store by a customer, and the little girl, spying it, drew out the cork and drank some of the contents. The screams of the child brought her mother immediately, who upon observing what was the matter, rushed with the little sufferer in her arms to the drug store and informed Dr. Baker, the doctor, who is ready for all cases, immediately administered antidotes, and did his utmost to relieve the little sufferer, and after a hard battle succeeded in saving the child's life, as she is now considered out of danger. Mr. and Mrs. West have made many warm friends since coming to Millet, who have been unfailing in rendering every aid possible. We hope for little Marjery's speedy recovery, as she is a very bright girl and a comfort to her parents.

Auction Sale

Stock and Implements

Wetaskiwin Public School

In view of the difficulty of getting tenders within the limit of the \$25,000 by-law, we think it well to publish the following results of attendance at the Wetaskiwin for the six school days closing Tuesday, May 17th. A little reflection on these figures will show that though another teacher was added to the staff last week, making now six members, there will be need of the seventh in the near future, if justice is to be done to the pupils in the school room, and this addition is needed without opening a high school department or Standard VI. Division I has a seating capacity for only 27, so is omitted.

Be American Silver

At a meeting of the managers of the Wetaskiwin branches of the chartered banks, held on May 12th, 1904, the following resolution was adopted:

"That a discount of five per cent. (5%) minimum charge of five (5) cents be collected on all American silver taken over the counter, for the thirty days after 1st June; and that at the expiration of that term the rate of discount be raised to twenty per cent. (20%).

Card of Thanks

The undersigned desires to thank his many friends and neighbors for their assistance towards the erection of a new house, after the loss of his residence by fire.

W. H. WELCH,
Ferry Point.

V. C. FRENCH, Editor and Proprietor

THURSDAY, MAY 19, 1904.

Penron Park

(Intended for last week.)

Harold Toft is visiting friends at Crooked Lake.

Dick Hawkins is about done seeding, after which he will look after his interest in the school.

Will Fee and Bert Fee are plowing the W. Bowie farm. They intend seeding it all to barley and help out the Western Brewing Company.

Rob. Hutton is through seeding but there is something else he intends to do which will be known in the near future.

Frank Fee has been appointed life insurance agent by the government, so all who wish to insure will know who to see.

There was 60,000 feet of lumber belonging to P. J. Mullin, of Millet, jammed in the Pipestone last Sunday. By the aid of Will Fee and his horses the jam was broken.

On Monday last Misses Beatrice and Zermah Boyd and Mina Fee went down to the river to see the lumber rafts snout the rapid, one of the most dangerous on the river, known as the Devil's Shoot. The girls selected a raft and defied the danger. Their merry shouts and laughter were suddenly turned to a wail of distress as the raft turned crossways in the shoot and the waters swept the girls into the boiling foam below. Owing to the prompt action of Hans Troy and Clarence Knutson, who, at the risk of their lives sprang to the rescue, no lives were lost. The young ladies are none the worse but say they know pretty well what drowning is like.

Molstad

On request I will endeavor to let the outside world know something about the large and beautiful settlement around Molstad I.P.O. The farmers here are mostly Scandinavian-Americans, but there can also be found a few German and Canadian families. If we take a trip through the settlement we will see new houses coming up everywhere—a true sign that we have our share of the immigration. We will also find that the shanties and tents put up to use for the first months are giving way to good sized comfortable dwellings—a just as true sign that the people are both prosperous and industrious. We have school houses and a Lutheran congregation, also a ladies aid society with about twenty members. The C.P.R. and Molstad. If we don't get it is fair to eat this summer we are pretty sure to get it a year from now.

Mr. Oldenham had the misfortune to lose his newly erected dwelling by fire a couple of weeks since.

Mr. Downes is among those who have built on their claims this spring and we expect soon to see him and family move out.

Mr. Kringer is expecting a lot of immigrants from the States this week. He went to town to meet them.

E. T. Sabby, one of the first settlers in this vicinity, has received a large amount of trees and seeds from the experimental farm at Regina.

Anton Jackson has built a very neat long house on his farm. We expect soon to see it occupied by one of Alberta's fair maidens.

Several farmers around here are having their houses and barns painted this week.

Young Ladies, Read This

If you are interested with yourself in light blouses on your face if your complexion is sallow, it is evident that you require Jerome to make them. Our new line of light blouses make the complexion like peach bloom, checks and stripes are the latest designs. Come and see Jerome, thousands of ladies keep up their youthful appearance with Jerome, why not you? Price 5¢, at druggists.

Millet

(For last week.)

Walter McPherson came down from Strathcona on Tuesday and visited between trains with his mother.

Alex. McWilliams departs Wednesday morning for his old home in England.

Dr. Cragg sold his property here last week to Dr. Parker and is now located in Calgary.

The basket social which was held in the town hall last Friday was well attended and a good time reported. About \$300 was realized from the sale of baskets.

Presbyterian services were held in the M. E. church last Sunday afternoon. These meetings will be held every two weeks during the summer.

The Germs of Cataract

Not only attack the passages of the head and throat, but finally reach the lung and heart, causing a disease which destroys cataract so quickly as to prevent its removal. Cataractone which removes cataract from the eye takes it away from the throat. "I consider a Cataractone has no equal as a cure for cataract and I am sure it will be a great success in Bright's Disease. It cured me after many good doctors failed to even relieve my trouble. It is guaranteed to cure it's guaranteed. Two months treatment \$1, trial size 2¢."

BY-LAW NO.

A By-Law to authorize the issue of debentures of the Town of Wetaskiwin to the amount of \$25,000.00, for the purpose of installing an electric light and power plant and the sale of the said corporation.

WHEREAS it is desirable that the Council of the corporation of the Town of Wetaskiwin should build, erect and install an electric light and power plant and the sale of the said corporation;

AND WHEREAS in order to secure the services of the Municipality for the sum of \$20,000.00, hereinabove provided (which is the amount of the sum of the debentures issued by the By-Law), the proceeds of the said debentures to be applied to the purpose aforesaid;

AND WHEREAS it is deemed necessary that the repayment of the debentures should be spread over a period of twenty years as hereinbefore provided;

AND WHEREAS the amount of the debentures issued by the Town of Wetaskiwin, according to the last revised By-Law, is the sum of the whole ratable property of the Town of Wetaskiwin, according to the assessment roll for the year ending April 30th, 1901, but has not yet been revised, is \$60,000.00;

AND WHEREAS the total amount of the existing debt of the Town of Wetaskiwin, outside of the said By-Law, is \$17,714.44;

AND WHEREAS the said By-Law shall take effect on the 6th day of June, 1904, being a day not more than three months from the day on which it was passed by the Legislative Assembly;

WHEREFORE the Municipal Council of the corporation of the Town of Wetaskiwin do hereby ordain as follows:

1. The Municipal Council of the Town of Wetaskiwin will expand the existing debt by the sum of the cost of building, erecting, and installing an electric light and power plant and the sale of the said corporation.

2. The amount of the debentures of the sum of not more than \$100.00 each, as follows: Each of said debentures shall be dated as of the day of June, 1904, and shall be made payable within twenty years from said date, at the Market House of the Town of Wetaskiwin, in equal annual installments with accrued interest, as provided by the said By-Law, and shall be paid out in the Municipal Ordinances, 1893, Cap. 30, Sec. 21;

3. The said debentures shall bear interest at the rate of one cent per annum, payable at the said Bank on the 4th day of June of every year, during the term of the debt, and shall be attached to them for the payment of the interest, and interest, as indicated by the form of coupon set out in the Municipal Ordinances, 1893, Cap. 30, Sec. 21;

4. The said debentures shall be signed by the Mayor and Secretary-Treasurer, respectively, of the said Town, and the Clerk of the said Town, and the Clerk of the said Corporation, and shall be countersigned by the returning officer.

5. The votes of the electors of the said Town of Wetaskiwin, on the 4th day of June at the Town Hall, shall be taken on this By-Law at the Town Hall, Wetaskiwin, on the 4th day of June at the Town Hall, and the returning officer shall on the said 4th day of June at the Town Hall, Wetaskiwin, sign up the number of votes given for or against this By-Law, and shall, upon proper application made to him by any person interested in paying off the debt created by this By-Law, authorize the attendance of one person on behalf of such party applying at the said polling place and of the said returning officer.

The Clothing Sale at The

Has far over reached our expectations, but this week we must double last week's business in Clothing, a very large stock to choose from. Remember only three weeks longer. 15 per cent. discount for cash.

We have a few Skirts left to clear at \$2.75. This is a snap in the Skirt line.

A large variety of Ladies' Dress Skirts, Jackets, Costumes, Raincoats, Etc.

Print Blouses 65¢, Muslin Blouses \$1, Linen Blouses \$1.50. Come along with the crowd, bargains in these goods every day.

There Would Be Less

There would be less "darnation" trouble if boys and girls would always go bare-legged, but here's our consolation—

Buy Black Cat Hose
Black—and fast black at that.

Strong—double knees, sole, heel and toe.

Good—through and through. That's the

"BLACK CATS"
Here—and only here.

25c, 35c, 40c, 50c.

GROCERIES

Heather Bell Tea, 1 lb package, 45c; 5 lb tins \$2.

Ogilvie's Flour always in stock. The best made. Try a sack and be convinced.

You will always find a nice variety of Green Stuff, fresh from the B.C. market at the Star.

If you want the top price for your

BUTTER and EGGS

bring them here.

Notice to Contractors

Tenders will be received by Jas. S. Orr, Secretary of the Wetaskiwin School Board, up to 11 A.M., May 21, 1891. The tenders will be read at 12 o'clock p.m., on Saturday, May 21st, for the construction of a new school building.

Plans and specifications may be seen at the office of the Secretary, or at the office of Jas. S. Orr, Secretary of the School Board, or at the office of D. Johnson, at Edmonton, from 10:30 A.M. to 4 P.M., on Saturday, May 18th, to 9 o'clock on Saturday, May 21st. Tenders may be made to build the school to be built, or to build a portion of it, or to repair or alter the existing school building.

Tenders may be bulk or separate according to specifications.

The lowest or any tender not necessarily accepted.

Call from 8:30 A.M. to 12:30 P.M. on Saturday, May 18th, to 9 o'clock on Saturday, May 21st.

See Terms of Wetaskiwin School Board, Wetaskiwin, Alta., May 11, 1891.

O. PETERSON,
Secretary.

Mare Estray

THE SPIDER TREE.

A Curious Product of the Cape Negro

Travelers who visited or passed the Cape Negro country of Africa often heard from the natives of a plant that was part spider and that, growing, three or four feet apart, could be seen to swing. It was the good fortune of Dr. Welwitsch to discover the origin of the legend. Strolling along through a wild, swept tableland country, he saw a plant that was indeed a spider upon the ground, but had two enormous leaves that blew and twisted about in the wind like serpents—in fact, it looked as the natives had said, like a giant spider.

Its stem was four feet across and not a foot high. It had but two leaves which were very large, and which were long as a spit, or by the way so that they resembled ribbons. This is the most extraordinary tree known.

It grows in the Cape Negro, and about a foot, simply expanding until it reaches the diameter given, looking in its adult state like a singularly large umbrella. It grows ten to eighteen inches in circumference.

When the wind came rustling in from the sea, lifting the curious ribbon-like leaves and making them twist and turn, the natives, who had never seen such a plant before, declared it a "spider tree."

When the wind was strong enough to move the plant, the natives declared that the tree was a spider.

The child born today may expect four years' longer life than the child born fifty years ago. One of the agents to bring about this result is the new nurse, who has been trained in school from the first infant's alimentary.

Another a cough or a cut is quickly cured which through inattention would develop into something serious. So successful has the new nurse in the New York schools the past winter that twelve more have been appointed.

Another Wireless Method.

Peter Cooper Hewitt has perfected a wireless system of telegraphy which is superior to Marconi's method. The device consists of a glass globe of ten inches in diameter, having two tubes containing mercury sealed to the bottom of the vessel. The current in these devices depends upon a new phenomenon in physics which Mr. Hewitt discovered and no one else knows.

Another Wireless Method.

Peter Cooper Hewitt has perfected a wireless system of telegraphy which is superior to Marconi's method. How to Catch Wolves

There is a great number of traps in the woods, and the traps are set, so that when a wolf comes in contact with the trap, it will be sprung, and the wolf will be caught.

BARLEY
50c. BUSH.

**FARMERS DO YOU WANT TO
RECEIVE THAT PRICE FOR
YOUR BARLEY ?**

The Western Brewing & Malting Co. will guarantee to pay 50c per bushel or more for all the brewing barley that can be grown in this district, on the condition that they, the Farmers, take 150 bushels at \$100 per share, of the Western Brewing & Malting Co. stock at par, free from any compensation whatever, in which case a brewery would be established in Wetaskiwin. This is a great chance for the farmers, but as this is short, action must be taken at once.

**The Western Brewing
& Malting Company.**
